

**The Blackout system provides an auxiliary power supply integrable in all systems in which is essential to report a power failure.**

*The power supply is activated directly from the lack of voltage on the line and provides power to the system with the included battery. The battery is automatically recharged from the line as soon as it is restored.*

Powered by	Power supply/ Battery kit	<b>230 VAC/12 VDC Battery 18 Ah</b>
Activated by	<b>lack of voltage on the line</b>	
Fixing	<b>band-it - Ø60 - Ø90</b>	
Dimensions	<b>28 x 36 x 11 cm</b>
