

D4-Box battery charger with external power supply

TECHNICAL FEATURES

Description

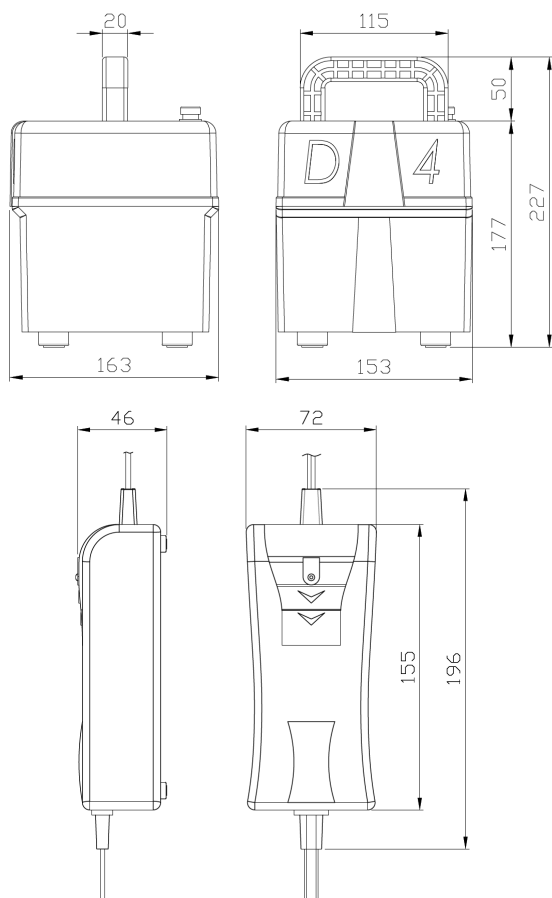

Charger for rechargeable 6V 4R25 AGM lead batteries. It is obligatory charging four batteries simultaneously inside the Box.

ELECTRICAL FEATURES

Input voltage	230 Vac \pm 10%	
Output voltage	4 \div 15 Vcc	
Output current	3 A	
LED Green	Steady light (batteries connected and charged)	Flashing light (Batteries not connected)
LED Red	Steady light (Batteries connected in charge)	Flashing light (Short circuit or reverse polarity)
Battery configuration	2S2P	
Protection	Fuse 5x20 5A T (included)	

MECHANICAL FEATURES

Operating temperature	-10 °C \div +55 °C
Box dimensions	153 x 163 x 227 mm
Charger dimensions	155 x 72 x 46 mm
Box weight	600 g
Charger weight	500 g
Box material	Plastic
Charger material	Plastic
